DEPARTMENT OF COMMERCE.

Simla, the 20th August 1932.

A Trade Agreement has been reached between His Majesty's Government in the United Kingdom and the Government of India and will be placed before the Indian Legislature for approval. The Government of India will invite the Legislature to pass necessary legislation to give effect to the Agreement if approved. In concluding this Agreement

the Indian Delegation have throughout kept before them two main principles, viz., the extension and development of the export trade of India and the reservation unimpaired of the protection enjoyed by certain Indian industries.

The following are the main features of the Agreement.

Apart from a few revenue duties the policy of the United Kingdom in the past has been one of free trade but by the Import Duties Act of 1932 a general duty of 10 per cent ad valorem was imposed on all imports with the exception of certain essential foodstuffs and raw materials. The operation of this duty was suspended as regards Indian and Dominion products pending the result of the Ottawa Conference. As a part of the Agreement reached at Ottawa the United Kingdom will continue to give free entry in all Indian goods within the scope of the general 10 per cent duty. These goods will thus receive a preference of 10 per cent over all competing foreign goods to which this general duty applies. In addition, the duties on certain foreign goods have been or will be raised to higher levels and preferences enjoyed by Indian goods correspondingly enhanced. The principal commodities affected are—

Indian cotton manufactures, jute manufactures, tanned hides and tanned skins, non-essential vegetable oils, sandalwood oil, oil seed cake and meal, rice, groundnuts, coffee, tobacco, tea, spices, castor seed, bran, pollards, rice, meal and dust, teak and other hardwoods, pig-lead, magnesite, Indian granite and magnesium chloride.

Further discussions will take place in London regarding the terms on which Indian pig-iron and certain finished steel may be admitted free of duty into the United Kingdom. Contingent on the arrangement come to with other parts of the British Commonwealth of Nations existing preferences will also be retained on

barley, peas, beans, other pulses and millets, manures, goat skins and asbestos.

Foreign supplies of one commodity which has hitherto been duty free in the United Kingdom, viz., linseed will in future be subject to a 10 per cent duty and Indian linseed will enjoy a corresponding preference. This change has been made because of the importance of linseed to Indian agriculture.

There are a number of items of India's export trade with the United Kingdom such as shellac, raw jute, myrabolams, broken rice, mica and Indian hemp where any important competition from outside the Empire takes the form of indirect competition from substitutes; in regard to these free entry into the United Kingdom will be continued

The Indian Delegation has discussed with His Majesty's Government in the United Kingdom and representatives of the United Kingdom cotton trade means by which the greater use of Indian cotton in the United Kingdom might be stimulated and these discussions are still proceeding. It is common ground between the representatives of the United Kingdom cotton trade and the Indian cotton growers that improvement which has taken place in Indian cotton grown during recent years has made it practicable for Lancashire spinners to use substantially larger quantities of Indian cotton than hitherto and that such a development would be of mutual benefit. There is already a definite trend towards a larger proportion of Lancashire's cotton requirements being drawn from India. His Majesty's Government in the United Kingdom have intimated that they would co-operate in any practical scheme agreed between the United Kingdom cotton industries and the Indian growers for promoting the greater use of Indian cotton in Lancashire whether by research propaganda or improved marketing

On the import side India will give 7½ per cent tariff preference on certain classes of motor vehicles On other articles covered by the Agreement the rate of preference will be 10 per cent. These preferences may be given either by increase of duties on foreign goods or by reduction of duties on United Kingdom goods or by a combination of both methods. The 10 per cent preference extends to the following classes of manufactured goods:—

Building and engineering materials, chemicals, drugs and medicines, earthenware and porcelain, furniture and cabinet ware, hardware, instruments, apparatus and appliances (electrical, musical, photographic, scientific, surgical, wireless and miscellaneous), leather manufactures

The following metals:—

Aluminium, copper, lead, german silver, zinc, brass and similar alloys and manufactures thereof

Paint and painter's materials, paper and stationery, rubber tyres, and other manufactures of rubber, vehicles not mechanically propelled and cycles. In these classes of goods the preference is subject to certain specified exceptions which will be announced later and also to the general reservation that it does not extend

(*a*) to commodities to which protective duties are applicable;

(*b*) to those which are free of duty at present; or

(*c*) to those on which on grounds of national policy a specially low rate of duty has been imposed.

The 10 per cent preference is also applicable to the following miscellaneous manufactures; to certain articles of food and drink and to certain oils enumerated below:—

Miscellaneous manufactures.—Asbestos manufactures, boots and shoes of leather, brushes, metal buttons, cordage and rope with certain exceptions, cork manufactures, cutlery, glue leather cloth and artificial leather, smokers' requisites, toilet soap, toilet requisites, toys and requisites for games, umbrellas and umbrella fitting, filled cartridges and cartridge cases, oil cloth and floor cloth, engine and boiler packing, perfumed spirits.

Articles of food and drink.—Ale and beer, cocoa and chocolate, confectionery, tinned or canned fish, canned or bottled fruit, canned or bottled provisions (with certain exceptions), condensed and preserved milk..

Oils.—Fish oil, synthetic essential oil, natural essential oil (with specified exceptions) Mineral lubricating oils other than bathing oils, paint solutions and compositions containing oil and classed as dangerous and vegetable non-essential oils (with specified exceptions).

In the class iron and steel goods the 10 per cent preference extends only to those commodities which are not subject to protective duties and in the class of machinery only in those articles which pay the ordinary revenue rate twenty-five per cent ad valorem and not to those which in the interests of agriculture and industries are free of duty or are subject only to the temporary duty of 10 per cent. In the class of textiles it extends only to articles of apparel, haberdashery and millinery which are dutiable at twenty five per cent ad valorem and to woollen manufactures with specified exceptions in each case.

No decision is possible as regards goods made of cotton silk and artificial silk until the recommendations of the Indian Tariff Board on the cotton textile industry have been received and considered but it has been agreed that when duations have been reached the 10 per cent preference will be extended to these goods with the exception of artificial silk yarn and articles on which protective duties may be imposed.

With a view further to develop the external market for Indian manufactures and agricultural

products arrangements have been made for the exchange of preferences with Colombo and Interterates which will generally speaking extend to India the full benefits of their preferential tariffs. When these exchanges become effective this will involve the grant of preferences to India on cotton manufactures and on such commodities as tea, coffee, oil seeds and vegetable oils, paraffin wax, carpets and rugs.

The Agreement also provides for the grant by India of preferences on certain commodities which are staple exports of the Colonial Empire including—

Specified grains and resins, oil seeds, vegetable and essential oils, unground spices, cocoanuts and coconut products, fish, fruits and vegetables, sugar and tapioca, rum and unmanufactured tobacco but excluding sugar.

The Agreement between His Majesty's Government in the United Kingdom and the Government of India shall continue in force until a date six months after notice of denunciation has been given by either party:

Provided in the event of circumstances arising which in the opinion of either party necessitate a change in the rates of duty or margins of preference settled by the Agreement on any particular description of goods that party shall notify and consult with the other party with a view to adjustments being agreed upon. If no agreement is reached within six months of the date of such notice it shall then be open to the original party to give to the other party six months' notice of his intention to carry into effect the change desired in the rate of duty or the margin of preference on goods of the description agreed in the original notice and to bring the revised rate or rates into operation at the expiration of this period.

Conversations have taken place between the Indian Delegation and the Delegations representing the Dominions on the subject of possible tariff agreements but time did not permit of the consideration of this question being advanced beyond the stage of preliminary discussions. The Government of India will be prepared to consider the matter further when they receive a full report from the Indian Delegation.

PART V—RULES UNDER CLAUSE (*c*) OF SUB-SECTION (2) OF SECTION 20.

Cow's Milk.

16. Where a sample of cow's milk (not being sold or offered for sale as skimmed or separated milk) contains less than 3 per cent of milk-fat, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine, by reason of the abstraction therefrom of milk-fat, or the addition thereto of water.

17. Where a sample of cow's milk, whether sold, or offered for sale as cow's milk or as skimmed or separated cow's milk, contains less than 8·5 per cent of milk-solids other than milk-fat, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of addition thereto of water.

18. Where a sample of cow's milk, whether sold, or offered for sale as cow's milk or as skimmed or separated cow's milk, contains less than 0·5 per cent of nitrogen, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the addition thereto of water.

Buffalo's Milk.

19. Where a sample of buffalo's milk (not being sold or offered for sale as skimmed or separated milk) contains less than 4·5 per cent of milk-fat, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the abstraction therefrom of milk-fat, or the addition thereto of water.

20. Where a sample of buffalo's milk, whether sold, or offered for sale as buffalo's milk or as skimmed or separated buffalo's milk, contains less than 9 per cent of milk-solids other than milk fat, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the addition thereto of water.

21. Where a sample of buffalo's milk whether sold, or offered for sale as buffalo's milk, or as skimmed or separated buffalo's milk, contains less than 0·53 per cent of nitrogen, it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of the addition thereto of water

NOTE.—The maximum limits for nitrogen in rules 18 and 21 above are intended to be used in those cases in which the sample of milk when it is analysed is so far decomposed that an estimation of the proportion of milk-solids other than milk fat in the sample before decomposition will be unreliable, the proportion of nitrogen not being appreciably affected by decomposition.

Cow's or Buffalo's Milk.

22. Where milk is sold or offered for sale without any indication as to whether it is derived from the cow or the buffalo, the provisions of rules 16, 17 and 18 shall apply thereto in all respects as if it were cow's milk sold or offered for sale:

Provided that where the milk is sold or offered for sale as skimmed or separated milk, the provisions of rule 16 shall not apply thereto.

Maximum limit for Dirt in Cow's Milk or Buffalo's Milk

23. Where a sample of milk, separated or skimmed milk, deposits, on standing for a period of 24 hours, or less, an amount of visible sediment exceeding five parts per 100,000 (both milk and sediment being measured by volume), it shall be presumed for the purposes of the Act, until the contrary is proved, that the milk is not genuine by reason of its containing an excessive amount of dirt.

Butter from Cow's or Buffalo's Milk or Cream.

24. Where the proportion of water in a sample of butter made from cow's or buffalo's milk or cream exceeds 20 per cent, it shall be presumed for the purposes of the Act, until the contrary is proved, that the butter is not genuine by reason of the excessive amount of water therein.

Ghee.

25. Where the proportion of water in a sample of ghee exceeds 1 per cent, it shall be presumed for the purposes of the Act, until the contrary is proved that the ghee is not genuine by reason of the excessive amount of water therein.

Tea.

26 (*a*) Tea shall be derived exclusively from the leaves and buds of plants of the Camellia genus and Thea species.

(*b*) Tea shall contain—

(i) a proportion of total ash of not less than 4 per cent and not more than 8 per cent;

(ii) a proportion of ash soluble in boiling water which is not less than 40 per cent of the total ash determined as in clause (i); and

(iii) a proportion of ash which is insoluble in dilute mineral acid not exceeding 1 per cent.

Explanation.—For the purposes of this rule, the ash of tea shall be determined on dry tea (that is, tea dried to constant weight at 100° C.).

(*c*) Where a sample of tea does not comply with all the standards specified in sub-rules (*a*) and (*b*), it shall be presumed for the purposes of this Act, until the contrary is proved, that the tea is not genuine.

PART VI—RULES UNDER CLAUSE (*f*) OF SUB-SECTION (2) OF SECTION 20.

INSTRUCTIONS TO CANDIDATES APPEARING FOR THE EXAMINATIONS TO BE HELD IN 1932.

Candidates for University Examinations are required to observe the following instructions very carefully :—

1. Strict silence should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall, each day of the examination, their hall tickets for inspection by the Chief Superintendent.

3 Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so their answers will not be valued, and their conduct will be reported to the Syndicate for disciplinary action.*

7. CANDIDATES ARE NOT ALLOWED THE USE OF BOOKS OF ANY KIND (EXCEPT AS PROVIDED IN RULE 8). THEY ARE ALSO PROHIBITED FROM INTRODUCING INTO THE EXAMINATION ROOM ANY BOOK OR PORTION OF A BOOK, SLATE, MANUSCRIPT OR PAPER OF ANY DESCRIPTION, FROM COMMUNICATING WITH OR COPYING FROM EACH OTHER, AND FROM COMMUNICATING WITH ANY PERSON OUTSIDE THE EXAMINATION ROOM. ANY CANDIDATE DETECTED IN THE VIOLATION OF THESE RULES WILL BE SENT OUT OF THE ROOM FORTHWITH, AND HIS CONDUCT WILL BE REPORTED TO THE REGISTRAR.

The use of stencils at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in Physical Science will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates offering Mathematics, Physics, Chemistry, Geography, Electrical Engineering and Mechanical Engineering of the Intermediate, B.A., B.Sc. (Ag.), B.Sc. Part II, B.A. (Honours), B.Sc. Honours, M.A., Pre Registration and B.Sc. Degree examinations only.

An 'earnest' fee of an amount equivalent to the cost of a copy of Mathematical Tables should be deposited with the Chief Superintendent by each student requiring the use of such books, the amount to be refunded on the book being returned. The cost price of each book is seven annas.

9. Candidates for the B.A. Degree Examination under Groups (ii) and (iii) are required to submit their laboratory note-books both in the main and the subsidiary subjects to the Examiner concerned on the first day of the practical examinations, and to get them back at the close of the examination. *This instruction applies only to candidates appearing from colleges.*

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is requested to the instructions regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Paper must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. AS SOON AS CANDIDATES HAVE FINISHED WRITING THEIR ANSWERS, AND WISH TO GIVE UP THEIR ANSWER BOOKS, OR AT THE END OF THE PERIOD PRESCRIBED FOR EACH PARTICULAR PART OF THE EXAMINATION, EACH SHOULD STAND UP IN HIS PLACE AND REMAIN STANDING UNTIL ONE OF THE SUPERINTENDENTS HAS COME UP TO HIM AND HAS RECEIVED HIS ANSWER BOOK FROM HIM.

Where the halls are suitable the following alternative procedure may be adopted :—At the end of the period prescribed for each particular part of the examination the candidates should at once fold their answer books, leave them in evidence at their places, vacate their seats, retire to the passages between the tables and move out of the hall in order and in silence, the Superintendents being meanwhile stationed in position from which they may command a good view of the blocks entrusted to their care; when all the candidates have moved out the Superintendents will collect the answer books.

13 Communications to the Registrar from candidates requesting information relating to the results of examinations will not receive attention until after the publication of the results in the *Fort St. George Gazette*.

14. 15. *No college student will be allowed to select a centre for the examination other than that in which the College, he studies, is situated, except for satisfactory reasons and on the recommendation of the Principal of his College.*

16. *Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendents of such centres as to their identity.
